POLICE MAINTAINING ORDER

Lightermen Gain Ten-Hour Day
and Wage Advance—Situation
in Liverpool More
Serious.

[By Cable to The Tribune.]
London, Aug. 11.—There has been a marked improvement in the labor conditions to-day, as the settlement of the lightermen's dispute has been followed by the ending to-night of the lightermen's dispute, and the leaders of the transport federation will permit the men of all sections to return to work on Monday.

The lightermen gain a ten-hour day and a 25 per cent increase in wages. To-night the strike committee issued a manifesto congratulating the men on the signal victory obtained and declaring the strike ended.

The evening in London passed quietly, there were no street disturbances, and owing to police protection the transfer of meat and other foodstuffs by the circuitous underground railway connections from the depots to the markets had been effected. With the supplies thus obtained to-day it is expected that the people will feel less inconvenience to-morrow.

The Home Office to-night issued a circular to the chief constables throughout the country calling attention to the provisions of the law dealing with intimidation and molestation in trade disputes and instructing them how to act.

While the strikers have paraded noisily through the East End and there have been a good many instances of violence and lawlessness, the mounted constables and heavy battalions of police have been sufficient for the maintenance of public order. The reserves of the military have remained in Aldershot and elsewhere in trains ready to move, but the work of the police has not met with interference.

The movement of food supplies and merchandise from the railway stations and docks has been blocked, and there has been a heavy shrinkage in motor traffic from the lack of petrol. There is also a scarcity of paper in the newspaper offices, and many branches of industry are seriously hampered. The passage of meat vans and goods carts under the protection of the mounted police has become a common sight, and there are general complaints of the lack of food supplies from householders, hotel caterers and club stewards.

Harry Gosling, Ben Tillett and the other strike leaders disclaim all responsibility for the Hooliganism, and assert that they have worked night and day for a settlement of the grievances, so as to cause as little inconvenience to the public as possible. It is the new policy of holding back all of the strikers until the claims of every section of the transport industry have been adjusted that has made the movement so formidable and involved such enormous mercantile losses.

Officials of the Board of Trade admit that the authorized processes of conciliation do not permit them to interfere in the slightest way with the tactics of the labor leaders.

A curious sight was afforded when vans came from the grounds of Buckingham Palace closely guarded by police. The wagons contained the baggage of the King, who has gone to Yorkshire. It had been feared that the strikers might intercept the royal effects.

Although the strike in London has been ended, labor troubles are threatened in several provincial towns. The corporation tramway men in Glasgow decided to-night to strike, and the railway strike in Manchester, combined with the labor movement in Liverpool, threatens stoppage of the cotton trade. Minor strikes have begun or are imminent in Newcastle, Hull and Edinburgh.

Liverpool, Aug. 11.—The crisis in the dockers' strike was reached to-day when the leading shipowners gave notice that unless a settlement of the trouble was reached by Monday they would attempt to effect a lock-out in all the industries of Liverpool.

The shipowners have been complaining that in spite of their recent agreement with the dockers sectional strikes have taken place, dislocating trade. They warned the union leaders that unless they could keep their men to the terms of the agreement a serious situation would arise. Therefore, fifty of the leading shipowners to-day formally informed the Dockers' Union that unless all sections of the strike resume work by noon of Monday there will be taken to stop all work throughout the port.

In a letter to the Lord Mayor informing him of this decision, the shipowners explain that the stage has been reached under which trade is impossible, as the men have refused to accept their friendly overtures and return to work. The Lord Mayor has offered his services as mediator in the trouble.

Large quantities of meat are tied up in the refrigerators in Birkenhead and the stock of coal is rapidly running out. Shortage of coal to-day necessitated the closing down of several factories and added greatly to the number of idle men.

Additional cavalry and infantry were brought into the city to-day, but there was less disturbance than on previous days. This was due to the strike committee having issued a manifesto earnestly appealing to the men to refrain from acts of violence.

During the evening thirty-three wagon loads of provisions were successfully moved from the docks under guard of a large force of military and police and with a magistrate at the front and rear of the procession prepared to read the Riot Act in case of interference. The procession traversed the streets amid the jeering of thousands of strikers, but it was not disturbed.

Late to-night serious rioting occurred in the vicinity of Lime Street station. A mob wrecked twenty shops and looted them of boots and clothes. The 600 additional troops who arrived in the city to-night met with a hostile reception.

St. John, N. B., Aug. 11.—Strike conditions in London have resulted in a decided curtailment of shipping between England and the provinces. At present only one tramp steamer is in the port, while in three of the harbor are cargoes for three or four steamers awaiting an opportunity for loading. It is expected that when the dock strike in London is settled there will be a great improvement in shipping conditions. Local lumber exporters say that the English lumber market is in an unfavorable state, owing to several recent failures.

SHIP'S STEWARDS STRIKE

Montreal Police Arrest All on
Allan Liner's Arrival.

Montreal, Aug. 11.—Five patrol wagons and a squad of constables met the Allan liner steamer *Victorian* on her arrival here to-night from Liverpool, crowded the vehicles with the vessel's fifty-seven first and second class stewards and took all of them to jail. The stewards are charged with mutiny for not serving breakfast and luncheon to the vessel's passengers.

The trouble started this morning. It is charged, when the stewards balked at helping out before the mail at Rimouski. They retreated from their stand, however, helped to get the mail ashore, but declined to assist in serving the meals. It is said. The chief steward, the second steward and four stewardesses served the meals as best they could, and officers of the ship sent word of the trouble ahead. The cooks and the third class stewards did not take part in the movement.

Officials of the Allan line assert that they cannot explain the attitude of the stewards unless it be in sympathy with the dock strike on the other side of the Atlantic. The wages of the stewards, officials say, were raised two months ago, and at that time the stewards said they were satisfied.

Their arrest surprised the stewards. They will probably be arraigned to-morrow morning.

ZIONIST BANKS PROSPEROUS

Lively Debate on Orthodox
Marks Congress Opening.

Basle, Switzerland, Aug. 11.—When the proceedings of the tenth Zionist Congress were opened to-day a telegram was read from Grand Vizier Hakkı Bey, thanking the Congress on behalf of the Turkish Government for the contribution to relieve the sufferers in the recent fire in Constantinople.

The session was occupied largely by favorable reports of the operations of the three Zionist banks, the Jewish Colonial Trust, of London, the Anglo-Palestine Company, of Jaffa, and the Anglo-Levantine Company, of Constantinople. It was reported that the capital of the Jewish Colonial Trust had been increased from \$400,000 to \$475,000, and a dividend of 8 per cent had been paid.

The Jewish National Fund for the purchase of land in Palestine has been increased by \$300,000 since the last conference. Dr. Buddenheimer, who reported on this fund, refuted the assertion that the laws of the Jewish religion were disregarded on the estates purchased with this money. A spirited debate arose between the orthodox and the free thinking elements of the Congress.

The Congress adjourned to-night for one Saturday.

ALL GERMANY SWELTERING

Rhine Lower than Since 1811—
99 in Shade in Berlin.

Berlin, Aug. 11.—The heated term continues unabated throughout Germany, and in the last few days the temperature has been higher than before. Deaths from sunstroke are reported from all sections. A water famine threatens several districts where the brooks are drying up.

In the Elbe region the farmers have been forced to haul water for miles. Fish are dying in the river beds there and in Westphalia. Navigation on the chief streams has been almost suspended, owing to low water. The Rhine at Rudesheim is lower than it has been since 1811. Passenger steamers on the Elbe have suspended service through the mountain region above Dresden.

The excessive hot spell has continued for two or three days, which is unprecedented since 1815, when the first records are available. Serious effects are apprehended on the clover, hay, potato and beet crops, which are suffering greatly from a lack of moisture.

Many cases of persons becoming insane because of the heat are reported. The picture galleries in the German Museum in Nuremberg have been temporarily closed and the pictures stored in cool rooms because of cracking of the paint and warping of the wooden panels threatened their ruin.

The thermometers in the side streets of Berlin to-day registered 99 in the shade.

HEAT WAVE IN THE WEST

Two Deaths in Kansas City—
Temperature 103.

Kansas City, Mo., Aug. 11.—With the skies overcast, the Southwest to-night has promise of relief from the excessive heat of the last three days. The maximum temperature here was 100, and two persons died and five were overcome as the result of the heat wave.

In Northern Oklahoma much live stock died from the heat. Late this afternoon showers fell at some points in Kansas. Temperatures to-day were: Montgomery, Mo., 100; Joplin, Mo., 100; Wichita, Kan., 100; Leavenworth, 102; Oklahoma City, 100; and Muskogee, Okla., 99.

ONE DEATH IN BALTIMORE.

Baltimore, Aug. 11.—To-day was the hottest August day in Baltimore for ten years. A maximum temperature of 98 degrees was recorded by the Weather Bureau. One death and several prostrations resulted from the heat.

CHOLERA SCARE IN FRANCE

Wealthy Families Move Away—Mar-
seilles Reports 34 Cases.

Paris, Aug. 11.—There is apprehension regarding the cholera in France, but up to the present time no bacteriologically established cases are reported except in Marseilles, where it is agreed there are thirty-four cases. It is officially denied in Lyons that there are any cases in that city. A suspicious case in Versailles is positively declared to be another malady than cholera.

Wealthy families have left the country for residence elsewhere until danger from the plague disappears. Every precaution in quarantine has been taken. The Society for the Protection of Commerce to-day and protested against the circulation of pessimistic reports.

HELD BECAUSE OF CHOLERA

Two Liners from Mediterranean De-
tained—One Reports a Death.

The Anchor liner *Calabria* and the Fabre liner *Venezia*, which arrived yesterday from the Mediterranean, were detained at Quarantine, and will be held several days for observation.

As the *Calabria* came from Naples, where there is much cholera, she was held as a precautionary measure. She carried 223 passengers, but no illness was apparent among them on arrival.

Salvatore Nicola, a steerage passenger on the *Venezia*, died from cholera on August 7, and was buried at sea. Giuseppe Vassanetti, a boatswain of the *Venezia*, and Antonio Pailino, a steerage passenger, were ill on arrival, and were removed to Swinburne Island for further examination.

IRISH LEADERS SURE

HOME RULE IS COMING

Passage of Veto Bill Gives Them
Great Hopes of Sweeping
Reform Soon.

MANY DELAYS ARE LIKELY

Premier Asquith Gains Great
Credit for Victory of the
House of Commons
Over the Lords.

London, Aug. 11.—The official report of the proceedings at yesterday's session of the House of Commons issued to-day contains the announcement in formal official terms that a house and which may be called the House of Lords saying they will not insist on their amendments to the parliamentary bill to which the House of Commons had disagreed, and have agreed to the consequential amendment to the bill proposed by the House of Commons. This will be recorded in the documents of Parliament the greatest victory achieved by a Liberal Prime Minister in a century, for although Unionist leaders passed the bill in the upper chamber last night, history will give the credit to Premier Asquith's audacious policy.

The great constitutional struggle ended last night when the House of Lords, by a vote of 131 to 114, adopted Viscount Morley's motion not to insist upon the Lords' amendments to the veto bill, the purpose of which is to restrict the powers of the upper chamber over legislation originating in the House of Commons. The result, among other things, in home rule for Ireland. The veto bill practically limits the authority of the House of Lords to a two years' suspensory veto and greatly increases the prerogatives of the House of Commons. The measure could not possibly have passed the House of Lords except as it was known that its rejection would be followed immediately by the creating of a new peerage to ensure the will of the lower chamber, and which the government asserts was the will of the people.

Achieved by Mixed Majority.

The victory was all the greater as it was achieved with a composite majority in the House of Lords, over which the government whips had no control. While there is a strong feeling among the Unionists to a radical change in the constitution, and even many Liberal peers thought the government was going too far, satisfaction is general that the end has been reached of a situation which has kept politics in a turmoil so long and prevented the adoption of much useful legislation.

In the press and among the people to-day the result was discussed with moderation, and with a ready willingness to turn to other questions. Certainly the recent rift has not done the Unionist party any good, and in the future there will be always the possibility of the trouble breaking out should the leaders show any weakness on a question of national importance. However, a strong effort is being made to bring the two sections together on a strong platform, among the chief planks of which will be the repeal of the parliament bill and the creation of the House of Lords, as outlined in Lord Lansdowne's bill.

The Earl of Selborne, the only possible leader of the Unionists outside of A. J. Balfour, will join the leaders under this policy, and a majority of his followers and the bulk of the Opposition party will fall in line. The Earl of Halsbury, the most unrelenting of the "die-hards," is now too old to take up the leadership of the Unionist party, but he will retire, probably from active politics. A few insurgents like Lord Willsborough de Broke and other fighting peers will always stay on the flank of the party ready to attack any sign of leaning to the democracy, but as they have always done this, the effect will not be serious.

Irish Leaders Confident.

The Irish leaders are confident that the way is now open to Home Rule, and from the statement of the Home Secretary, Winston Churchill, in the House of Commons, that the government intended to pass a Home Rule measure during the present Parliament, their confidence appears to some extent justified.

It must be remembered, however, that the Lords will still be able to delay the passage of a bill two years, and they can be depended upon to delay Home Rule as long as it is possible for them to do so. The earliest bill could not be introduced until next spring and it would be strongly fought in the House of Commons. The Lords would then throw it out and some time would elapse before it could be presented, so much depends on whether the government will be able to hold out that long.

An election, with the Parliament bill as an issue, probably would result favorably to the government, but an election over the question of Home Rule for Ireland is another matter. There is an increasing number of people in England who are now prepared to give Ireland a local self-government, which is all that John Redmond asks at present. Accordingly, the prospects of an election on this issue are not as threatening as heretofore.

The Irish press adopts a moderate tone in discussing the passage of the veto bill. "The Irish Times," of Dublin, says that it is only the first step in a bitter and prolonged controversy.

The Dublin "Freeman's Journal" says: "The curtain falls on the discomfiture of the Peers, the inveterate enemies of Irish nationality, only to rise straightway on that nationality in its triumph."

The "Irish Daily Independent," of Dublin, says: "So far as Ireland is concerned, the Lords may keep Home Rule back two years, and a feeble measure as well as a bold one will receive the same treatment at their hands. In these circumstances, the government should face the question boldly."

Boston, Aug. 11.—A cable message congratulating the Irish Nationalist leader, John E. Redmond, on the passage of the veto bill in the House of Lords last night, was sent to-day by the officers of the United Irish League of America. The message follows:

Hearty congratulations of United Irish League of America and friends of progress throughout America on glorious victory of last night. It clears the way for Home Rule. Irish America will sustain you until the end. DEMOCRACY OF ENGLAND, WALES AND SCOTLAND congratulated through you. MICHAEL, J. J. BYRNE, President; THOMAS B. FITZPATRICK, Boston, National Treasurer; JOHN J. O'NEILL, Boston, National Secretary.

Liberals and Unionists are already busy preparing for a campaign throughout the United Kingdom for and against Home Rule for Ireland. The Liberals are forming a new organization for this purpose under control of their chief whip. They will supply speakers and arrange meetings throughout the country.

MAGAZINE EXPLOSION KILLS.

San Jose, Costa Rica, Aug. 11.—The government magazine exploded from an unknown cause to-day. Several persons were killed and many others wounded. Many houses were destroyed by the shock.

\$1,000,000 FIRE IN ANTWERP.

Antwerp, Aug. 11.—Fire on the Quai de la Douane, where much cotton is stored, did damage to-day amounting to \$1,000,000. Immense quantities of saltpetre were destroyed.

GOMEZ TO OPPOSE MADERO

Church to Name Candidate for
Mexican Presidency, Too.

Mexico City, Aug. 11.—Dr. Francisco Vazquez Gomez to-day announced his willingness to become a candidate for the Presidency of the republic. He said that should the Anti-Re-electionists nominate him he could not see his way clear to refuse the offer. At the same time, however, he declared his relations with Francisco I. Madero were cordial and added, with a smile, that he still was the candidate for the Vice-Presidency on the Madero ticket.

Another surprise came to-day when it became known that the old fight between Church and State would be resumed in Mexico. Notwithstanding the separation effected by Benito Juarez almost half a century ago, the Catholic Church, acting through the National party, has formally issued a call for a convention to place in nomination a candidate for the Presidency. That the Anti-Re-electionists will place Dr. Gomez in nomination appears probable in view of their formal break with Madero last night. Because of Madero's refusal to annul the constitutional progressive party, which he created to be created a few weeks ago, the Anti-Re-electionists repudiated him and named Dr. Gomez as the head of their party.

Telegrams were sent immediately to the 22 Anti-Re-electionist clubs throughout the republic, and to-night in their headquarters it was asserted that more than three hundred had approved their action.

Madero to-day appeared unimpaired, and characterized the action as "unimportant." This latest move assures the entry of at least four candidates for the Presidency. A month ago there was only one candidate in sight—Madero. With the announcement of General Reyes, who had been in the Madero stock and to-day, since the split in his ranks and in view of the activity shown by the Catholic party, there is displayed great uneasiness among Madero's followers.

Lucerne, Switzerland, Aug. 11.—General Porfirio Diaz, former President of Mexico, has received many cable messages from opponents of Francisco I. Madero, urging him to return to Mexico and restore order. General Diaz does not heed these communications, and is looking for a villa with the object of staying here until the end of the season. His health is excellent, and he takes short excursions into the surrounding country frequently.

REYES'S SON-IN-LAW KILLED.

El Paso, Tex., Aug. 11.—A dispatch from Monterrey, Mexico, says that Fermín E. Sada, son-in-law of General Bernardo Reyes, was killed yesterday by Luis C. Reyes, also related to General Reyes. The killing occurred in the offices of the Torreon smelter, where Sada was cashier and Reyes bookkeeper. Differences over office matters caused the quarrel.

ROBBED OF \$150 AND RING

It Happened Near Woodlawn
Cemetery, Victim Tells Police.

Somewhere near Woodlawn Cemetery Wednesday night J. T. Downey, of No. 236 West 120th street, said he was held up and robbed of a diamond ring, and just an even \$150 in cash. This he made known in an advertisement in a New York paper yesterday, but until a late hour last night no one had called to claim the \$25 reward offered for the return of the ring and money.

Mr. Downey said last night that he left the subway station at Manhattan street, and was on his way home when he met two men. He talked a long time with them at 125th street and Eighth avenue. He told the police, he did not know either of their names.

Beyond recalling that one of the two wore a light suit Mr. Downey could form no further idea of their make-up. After that he said he lost his memory. He was awakened by a blow on the head as he lay on a hillside near Woodlawn.

Mr. Downey gathered himself together after a few minutes, and wandered to the New York, New Haven & Hartford Railroad tracks, where he was found by a patrolman of the Bronx Park station, and arrested on a charge of intoxication. He was brought to the Morrisania Court on Thursday and discharged. He said he wanted his ring and money back, and so he advertised that he had been held up and robbed.

TRIES TO FORCE BANK DOOR

Police of Montpelier, Vt., Catch
Stranger Red Handed.

Montpelier, Vt., Aug. 11.—Caught, it is alleged, in the act of trying to force open the door of the Capital Savings Bank and Trust Company, at State and Elm streets, here, to-night, an unidentified man was arrested, after a struggle, by chief of Police John W. Durkee. The man was a foreigner and professed not to understand English, so that his name could not be learned.

According to the police, Chief Durkee saw the stranger try to force open the rear door of the bank. Leveling his revolver at the man, the officer commanded him to stop, whereupon the man did so, but when up his hands. The man did not, then, throw up his hands. The stranger put up a fight, and after a sharp struggle he was overpowered and taken to the police station.

FALLS DEAD AT THE BEACH

"Countess" von Claussen's Father
Victim of Apoplexy, Doctor Says.

Adolph von Claussen, father of the "Countess" Ida von Claussen, dropped dead on the boardwalk at Brighton Beach last night. His daughter, who was with him, hastened to take dinner with her at the Manhattan Beach Hotel, and they were going down the boardwalk between Manhattan Beach and Brighton, when suddenly Mr. von Claussen fell. He was picked up and carried into an open air restaurant, Dr. Greenwood, of the Coney Island Hospital, said death was probably due to apoplexy.

Ida von Claussen, who was back to the Manhattan Beach Hotel, where she has been for two months with her ten-year-old daughter, locked herself up in her room and gave herself to everything.

Her father's body was taken to the Sheepshead Bay police station. Mr. von Claussen, who was seventy-two years old, was living at the Hotel Empire, 63d street and Broadway.

OFFICERS SHOT FOR THIEVES

Killed by Detective While Hunting
Car Robbers.

Detroit, Aug. 11.—Taken for car thieves themselves were hunting, Frank J. Cook and Daniel Vreeland, special officers for the Lake Shore Railroad, were shot dead last night on the Michigan Central tracks. The man who did the shooting, the police believe, was William Barnett, a Michigan Central detective.

The two men are said to have jumped out at Barnett as he was patrolling the Michigan Central tracks. Whether they likewise took him for a car thief or whether they were merely wishing to frighten him is not known. Barnett, it is declared, thought they were thieves attacking him and he drew his revolver and shot both.

Campaign Opening.

St. Hyacinthe, Aug. 11.—The French village of St. Hyacinthe will be the storm centre of the Canadian election campaign next Sunday when the government and the Opposition will, through their leading speakers, plead from the same platform for the votes of the 5,000 or more men who are expected to be present.

vass in Province.

Ottawa, Aug. 11.—The French village of St. Hyacinthe will be the storm centre of the Canadian election campaign next Sunday when the government and the Opposition will, through their leading speakers, plead from the same platform for the votes of the 5,000 or more men who are expected to be present.

The conservative Nationalists, under the leadership of Henri Bourassa, have launched there the attack against the government in advance of the Opposition in other provinces. The Liberals have declared that the attack must be met immediately, and Mr. Bourassa has been invited to appear on the same platform with Premier General Lacombe, whom the government has selected as its champion. These two speakers had a meeting two years ago, the warmth of which is still remembered by Quebec electors.

Interest in the coming clash runs so high that the railways will run special trains from many parts of Quebec. Reports that there is danger of a riot are scattered, however, by leaders on both sides.

Winnipeg, Man., Aug. 11.—Attorney General Campbell, after placing two registration clerks under arrest for refusing a reception was given in his honor by General R. G. Koebel, who at that time he met the various officers on duty in the camp.

The troops will break camp to-morrow, the first detachment to leave at 1:30 o'clock in the afternoon and by Monday night the camp will again be deserted.

BOARDERS PAY; ARE EJECTED

Woman Hotel Proprietor Disap-
pears and Marshals Step In.

Fifteen angry boarders are looking for Mrs. R. G. Koebel, who up to an early hour yesterday morning was the proprietor of the Mayhew Hotel, West 20th street and Surf avenue, Coney Island. Mrs. Koebel rented the hotel from the Mayhew Hotel Corporation May 1, and after the fashion of Coney Island lessees paid her first instalment on Memorial Day.

There were sixty-two boarders in the house, and according to the boarders, Mrs. Koebel went around and collected board up to September 1 from fifteen of these families. Yesterday morning at breakfast time there was no one at the head of the table. Deputy marshals appeared at the Mayhew Hotel in the afternoon and asked the people to pay a month's rent or get out. The majority paid, but the fifteen refused, having already paid. They got out—with the assistance of the marshals. When they went to the Coney Island police station they were told that their only redress was a civil suit.

"And we'll bring it," they said.

DIES IN AGONY IN PRISON

Retribution Comes to Inhuman
Criminal Serving Term.

Auburn, N. Y., Aug. 11.—Joseph Meyers, who, with two other seamen from Buffalo, was serving a sentence of six years for mutiny, in having cut off the ear of a non-union seaman and mailed it to an official of a lake carrier company in Cleveland in the lake seamen's strike, three years ago, died in the prison hospital to-day, the victim of an accident that happened on July 27, and which was not made public then.

He was striking the furnace of the cloth shop boiler, when a back draft shot out a cloud of fire that enveloped his head and chest, destroying his sight and burning off every vestige of skin and hair. He lingered in agony until death came. The body was sent to Buffalo.

The accused man replied with charges against the moral character of the witness, and it was whispered about the courtroom that he had "an evil eye." Soon after this report was spread one of the jurymen became ill and the session was suspended.

The testimony of three or four witnesses for the state probably will be sufficient to convince the grand jury that there are reasonable grounds to suspect the accused of the murder of his wife.
